RNE Joint Office – PCS Support team: support.pcs@rne.eu
PCS CB API documentation: [publicly available under this link](#)

Introduction

Target audiences

Current and future PCS CB API users, and anyone interested in knowing more about PCS CB API

Recommended prior knowledge for participants and viewers of the meeting recordings

- Familiarity with TAF/TAP TSI
- Familiarity with the topics of the PCS CB general introduction and training sessions from November 2025 (e.g. API architecture, communication flows): [publicly available under this link](#)

By the end of this training phase, participants will be able to:

- Navigate through the Feasibility Study process and New Path Request process
- Understand some key concepts (e.g. Path Request split)
- Complete test actions
- Collect answers to their questions (e.g. substantial time reserved for Q&A during each session)

RNE Joint Office – PCS Support team: support.pcs@rne.eu

December training phase: what would you like to be addressed?

Focus: Feasibility Study process and New Path Request process

Planned scope

[Available under this link](#) (section: December 2025 training sessions)

Inputs from 02.12.2025 session:

- Overview of the Path Cancellation process (Croatian Railways): an introduction will take place on the 16.12 session. The training for this process type will take place in April / May (exact dates not yet defined).

Inputs from 03.12.2025 session:

- None (no participant joined the session)

Inputs from 09.12.2025 session:

- None (no participant joined the session)

Inputs from 10.12.2025 session:

- None

01

DIGITAL CAPACITY MANAGEMENT

1st training session – 02.12.2025

Table of Content

1. Feasibility Study process presentation
2. Group testing and demonstration approach
3. Feasibility Study process group testing and / or live demonstration
4. Questions and Answers

RNE Joint Office – PCS Support team: support.pcs@rne.eu
PCS CB API documentation: [publicly available under this link](#)

Feasibility Study process presentation

Technical specifications:

- Main document:
 - Section 4.4
 - Section 5.1 (where relevant)
 - Section 5.10

Group testing and live demonstration approach

Criteria for the selection of the approach to be applied during the training session:

- If at least one participant wants to actively test (voluntary basis): group testing
- If no participant wants to actively test: demonstration by RNE JO only

Group Testing Characteristics

- Active participant sends/receives messages via SoapUI or CI, or checks RNE CI logs
- Configuration handled by RNE JO and the participant
- Each sub-action of the message sequence is tested step by step
- RNE JO demonstrates while participants replicate actions in parallel
- If difficulties arise: Live troubleshooting
- [Registration form](#) (section: December 2025 training sessions)

Approach for the 1st session (to be defined for each session)

- Live demonstration

Feasibility Study process group testing and / or live demonstration

Feasibility Study Start by the Leading Applicant

- Technical specifications chapter **5.10.1**
- Inbound sub-action: **263 (PCoM)**
- Outbound sub-action(s): **264 (PCoM), 265 (PCoM), 266 (OIM)**

Path request creation/update by an Involved Applicant

- Technical specifications chapter **5.1.5**
- Inbound sub-action: **28 (PRM)**
- Outbound sub-action(s): **30 (OIM)**

Path request finalisation by an Involved Applicant

- Technical specifications chapter **5.1.7**
- Inbound sub-action: **48 (PCoM)**
- Outbound sub-action(s): **53 (PCoM)**

Draft offer creation/update by an Involved IM

- Technical specifications chapter **5.1.14**
- Inbound sub-action: **111 (PDM)**
- Outbound sub-action(s): **117 (OIM)**

Promotion to Feasibility Study Result by the Leading IM

- Technical specifications chapter **5.10.7**
- Inbound sub-action: **290 (PCoM)**
- Outbound sub-action(s): **291 (PCoM), 293 (PDM)**

Questions & Answers

Question 1

- Marija Prša – HZ-I: We have not previously done Path Cancellation via PCS, what will the process look like?
 - Answer – RNE JO: RNE PCS API team will prepare to be able to answer this question in detail on the 16.12 session.

Conclusion

- Covered topics:
 - Feasibility Study process presentation
 - Group testing and demonstration approach
 - Feasibility Study process group testing and / or live demonstration
- Next training sessions in December: [available under this link](#) (section: December 2025 training sessions)
